DOJ Section 75

# EQUALITY SCREENING FORM

**Title of Policy:**

**The draft amendments to Northern Ireland Judicial  
Pension Legislation**

**The Legal Background** – Under section 75 of the Northern Ireland Act 1998, the Department is required **to have due regard to the need to promote equality of opportunity:**

- between person of different religious belief, political opinion, racial group, age, marital status or sexual orientation;
- between men and women generally;
- between persons with a disability and persons without; and,
- between persons with dependants and persons without.

Without prejudice to the obligations set out above, the Department is also required to:

- **have regard to the desirability of promoting good relations between persons of different religious belief, political opinion or racial group; and**
- **meet legislative obligations under the Disability Discrimination Order.**

## **Introduction**

**Part 1. Policy scoping** – asks public authorities to provide details about the policy, procedure, practice and/or decision being screened and what available evidence you have gathered to help make an assessment of the likely impact on equality of opportunity and good relations.

**Part 2. Screening questions** – asks about the extent of the likely impact of the policy on groups of people within each of the Section 75 categories. Details of the groups consulted and the level of assessment of the likely impact. This includes consideration of multiple identity and good relations issues.

**Part 3. Screening decision** – guides the public authority to reach a screening decision as to whether or not there is a need to carry out an equality impact assessment (EQIA), or to introduce measures to mitigate the

likely impact, or the introduction of an alternative policy to better promote equality of opportunity and/or good relations.

**Part 4. Monitoring** – provides guidance to public authorities on monitoring for adverse impact and broader monitoring.

**Part 5. Approval and authorisation** – verifies the public authority's approval of a screening decision by a senior manager responsible for the policy.

## **Part 1. Policy scoping**

The first stage of the screening process involves scoping the policy under consideration. The purpose of policy scoping is to help prepare the background and context and set out the aims and objectives for the policy, being screened. At this stage, scoping the policy will help identify potential constraints as well as opportunities and will help the policy maker work through the screening process on a step by step basis.

Public authorities should remember that the Section 75 statutory duties apply to internal policies (relating to people who work for the authority), as well as external policies (relating to those who are, or could be, served by the authority).

**Information about the policy** **Name of the policy:** Consultation on draft

amendments to Northern Ireland Judicial Pension legislation.

### **Is this an existing, revised or a new policy?**

### **What is it trying to achieve? (Intended aims/outcomes)**

The draft Order and Regulations are intended to add additional offices to those eligible for a judicial pension and to allow retrospective collection of member contributions.

### **Are there any Section 75 categories which might be expected to benefit from the intended policy?**

**If so, explain how.**

No

### **Who initiated or wrote the policy?**

Department of Justice

### **Who owns and who implements the policy?**

Department of Justice

## Implementation factors

Are there any factors which could contribute to/detract from the intended aim/outcome of the policy/decision?

If yes, are they (please delete as appropriate)

financial

legislative

other, please specify: N/A

## Main stakeholders affected

Who are the internal and external stakeholders (actual or potential) that the policy will impact upon? (please delete as appropriate)

Eligible Judicial Office holders who will now be offered a judicial pension.

## Other policies with a bearing on this policy

- what are they?

N/A

- who owns them?

N/A

## Available evidence

Evidence to help inform the screening process may take many forms. Public authorities should ensure that their screening decision is informed by relevant data. The Commission has produced this guide to [signpost to S75 data](#).

What evidence/information (both qualitative and quantitative) have you gathered to inform this policy? Specify details for each of the Section 75 categories.

**Religious belief** evidence / information: None. Due to the relatively small number of eligible judicial office holders, who are the group directly impacted, and the resultant possibility of random factors distorting the group profile from one assessment to the next, the likelihood that empirical data collection on the current group proving representative or meaningful in terms of subsequent beneficiaries may be considered problematic. On this basis no such exercise has been attempted and the Department, therefore, does not hold any evidence or data.

**Political Opinion** evidence / information: None. As above

**Racial Group** evidence / information: None. As above

**Age** evidence / information: None. As above

**Marital Status** evidence / information: None. As above

**Sexual Orientation** evidence / information: None. As above

**Men & Women generally** evidence / information: None. As above

**Disability** evidence / information: None. As above

**Dependants'** evidence / information: None. As above

## Needs, experiences and priorities

Taking into account the information referred to above, what are the different needs, experiences and priorities of each of the following categories, in relation to the particular policy/decision?

Specify details of the needs, experiences and priorities for each of the Section 75 categories below:

**Religious belief:** Not applicable.

**Political Opinion:** Not applicable.

**Racial Group:** Not applicable.

**Age:** Not applicable.

**Marital status:** Not applicable.

**Sexual orientation:** Not applicable.

**Men and Women Generally:** Not applicable.

**Disability:** Not applicable.

**Dependants:** Not applicable.

## **Part 2. Screening questions**

### **Introduction**

In making a decision as to whether or not there is a need to carry out an equality impact assessment, the public authority should consider its answers to the questions 1-4 which are detailed below.

If the public authority's conclusion is **none** in respect of all of the Section 75 equality of opportunity and/or good relations categories, then the public authority may decide to screen the policy out. If a policy is 'screened out' as having no relevance to equality of opportunity or good relations, a public authority should give details of the reasons for the decision taken.

If the public authority's conclusion is **major** in respect of one or more of the Section 75 equality of opportunity and/or good relations categories, then consideration should be given to subjecting the policy to the equality impact assessment procedure.

If the public authority's conclusion is **minor** in respect of one or more of the Section 75 equality categories and/or good relations categories, then consideration should still be given to proceeding with an equality impact assessment, or to:

- measures to mitigate the adverse impact; or
- the introduction of an alternative policy to better promote equality of opportunity and/or good relations.

### **In favour of a 'major' impact**

- a) The policy is significant in terms of its strategic importance;
- b) Potential equality impacts are unknown, because, for example, there is insufficient data upon which to make an assessment or because they are complex, and it would be appropriate to conduct an equality impact assessment in order to better assess them;
- c) Potential equality and/or good relations impacts are likely to be adverse or are likely to be experienced disproportionately by groups of people including those who are marginalised or disadvantaged;
- d) Further assessment offers a valuable way to examine the evidence and develop recommendations in respect of a policy about which there are

concerns amongst affected individuals and representative groups, for example in respect of multiple identities;

- e) The policy is likely to be challenged by way of judicial review;
- f) The policy is significant in terms of expenditure.

### **In favour of 'minor' impact**

- a) The policy is not unlawfully discriminatory and any residual potential impacts on people are judged to be negligible;
- b) The policy, or certain proposals within it, are potentially unlawfully discriminatory, but this possibility can readily and easily be eliminated by making appropriate changes to the policy or by adopting appropriate mitigating measures;
- c) Any asymmetrical equality impacts caused by the policy are intentional because they are specifically designed to promote equality of opportunity for particular groups of disadvantaged people;
- d) By amending the policy there are better opportunities to better promote equality of opportunity and/or good relations.

### **In favour of none**

- a) The policy has no relevance to equality of opportunity or good relations.
- b) The policy is purely technical in nature and will have no bearing in terms of its likely impact on equality of opportunity or good relations for people within the equality and good relations categories.

Taking into account the evidence presented above, consider and comment on the likely impact on equality of opportunity and good relations for those affected by this policy, in any way, for each of the equality and good relations categories, by applying the screening questions given overleaf and indicate the level of impact on the group i.e. minor, major or none.

## Additional considerations

### Multiple identity

Generally speaking, people can fall into more than one Section 75 category. Taking this into consideration, are there any potential impacts of the policy/decision on people with multiple identities?

*(For example; disabled minority ethnic people; disabled women; young Protestant men; and young lesbians, gay and bisexual people).*

None identified.

Provide details of data on the impact of the policy on people with multiple identities. Specify relevant Section 75 categories concerned.

None identified.

### **Part 3. Screening decision**

If the decision is not to conduct an equality impact assessment, please provide details of the reasons.

The draft Order and Regulations will apply to all within scope equally.

If the decision is not to conduct an equality impact assessment the public authority should consider if the policy should be mitigated or an alternative policy be introduced - please provide details.

Proposed amendments apply to a relatively small cohort equally.

If the decision is to subject the policy to an equality impact assessment, please provide details of the reasons.

Not applicable.

All public authorities' equality schemes must state the authority's arrangements for assessing and consulting on the likely impact of policies adopted or proposed to be adopted by the authority on the promotion of equality of opportunity. The Commission recommends screening and equality impact assessment as the tools to be utilised for such assessments. Further advice on equality impact assessment may be found in a separate Commission publication: Practical Guidance on Equality Impact Assessment.

## Mitigation

When the public authority concludes that the likely impact is 'minor' and an equality impact assessment is not to be conducted, the public authority may consider mitigation to lessen the severity of any equality impact, or the introduction of an alternative policy to better promote equality of opportunity or good relations.

Can the policy/decision be amended or changed or an alternative policy introduced to better promote equality of opportunity and/or good relations?

If so, **give the reasons** to support your decision, together with the proposed changes/amendments or alternative policy.

Not applicable.

## Timetabling and prioritising

Factors to be considered in timetabling and prioritising policies for equality impact assessment.

If the policy has been '**screened in**' for equality impact assessment, then please answer the following questions to determine its priority for timetabling the equality impact assessment.

On a scale of 1-3, with 1 being the lowest priority and 3 being the highest, assess the policy in terms of its priority for equality impact assessment.

**Priority criterion** [Author pick 1, 2 or 3 if a full EQIA is to take place]

Effect on equality of opportunity and good relations

Social need

Effect on people's daily lives

Relevance to a public authority's functions

Note: The Total Rating Score should be used to prioritise the policy in rank order with other policies screened in for equality impact assessment. This list of priorities will assist the public authority in timetabling. Details of the Public Authority's Equality Impact Assessment Timetable should be included in the quarterly Screening Report.

Is the policy affected by timetables established by other relevant public authorities?

If yes, please provide details.

Not applicable

## **Part 4. Monitoring**

Public authorities should consider the guidance contained in the Commission's Monitoring Guidance for Use by Public Authorities (July 2007).

The Commission recommends that where the policy has been amended or an alternative policy introduced, the public authority should monitor more broadly than for adverse impact (See Benefits, P.9-10, paras 2.13 – 2.20 of the Monitoring Guidance).

Effective monitoring will help the public authority identify any future adverse impact arising from the policy which may lead the public authority to conduct an equality impact assessment, as well as help with future planning and policy development.

Further advice on monitoring can be found at: [ECNI Monitoring Guidance for Public Authorities](#)
