The Legal Background

Under section 75 of the Northern Ireland Act 1998, the Department is required to have due regard to the need to promote equality of opportunity:

- between person of different religious belief, political opinion, racial group, age, marital status or sexual orientation;
- between men and women generally;
- between persons with a disability and persons without; and,
- between persons with dependants and persons without.

Without prejudice to the obligations set out above, the Department is also required to:

- have regard to the desirability of promoting good relations between persons of different religious belief, political opinion or racial group; and
- meet legislative obligations under the Disability Discrimination Order.

Introduction

1. This form should be read in conjunction with the Equality Commission’s revised Section 75 guidance, “A Guide for Public Authorities” April 2010, which is available on the Equality Commission’s website (www.equalityni.org).

   Staff should complete a form for each new or revised policy for which they are responsible (see page 6 for a definition of policy in respect of section 75).

2. The purpose of screening is to identify those policies that are likely to have an impact on equality of opportunity and/or good relations and so determine whether an Equality Impact Assessment (EQIA) is necessary. Screening should be introduced at an early stage when developing or reviewing a policy.

1 A list of the main groups identified as being relevant to each of the section 75 categories is at Annex B of the document.
3. The lead role in the screening of a policy should be taken by the policy
decision-maker who has the authority to make changes to that policy and
should involve, in the screening process:

- other relevant team members;
- those who implement the policy;
- staff members from other relevant work areas; and
- key stakeholders.

A flowchart which outlines the screening process is provided at Annex A.

4. The first step in the screening exercise, is to gather evidence to inform the
screening decisions. Relevant data may be either quantitative or qualitative
or both (this helps to indicate whether or not there are likely equality of
opportunity and/or good relations impacts associated with a policy). Relevant
information will help to clearly demonstrate the reasons for a policy being
either ‘screened in’ for an equality impact assessment or ‘screened out’ from
an equality impact assessment.

5. The absence of evidence does not indicate that there is no likely impact but if
none is available, it may be appropriate to consider subjecting the policy to an
EQIA.

6. Screening provides an assessment of the likely impact, whether ‘minor’ or
‘major’, of its policy on equality of opportunity and/or good relations for the
relevant categories. In some instances, screening may identify the likely
impact is none.

7. The Commission has developed a series of four questions, included in Part 2
of this screening form with supporting sub-questions, which should be applied
to all policies as part of the screening process. They identify those policies
that are likely to have an impact on equality of opportunity and/or good
relations.
Screening decisions

8. Completion of screening should lead to one of the following three outcomes. The policy has been:

   i. 'screened in' for equality impact assessment;
   ii. ‘screened out’ with mitigation or an alternative policy proposed to be adopted; or
   iii. 'screened out' without mitigation or an alternative policy proposed to be adopted.

Screening and good relations duty

9. The Commission recommends that a policy is 'screened in' for equality impact assessment if the likely impact on good relations is 'major'. While there is no legislative requirement to engage in an equality impact assessment in respect of good relations, this does not necessarily mean that equality impact assessments are inappropriate in this context.
Part 1

Definition of Policy

There have been some difficulties in defining what constitutes a policy in the context of section 75. To be on the safe side it is recommended that you consider any new initiatives, proposals, schemes or programmes as policies or changes to those already in existence. It is important to remember that even if a full EQIA has been carried out in an “overarching” policy or strategy, it will still be necessary for the policy maker to consider if further screening or an EQIA needs to be carried out in respect of those policies cascading from the overarching strategy.

Overview of Policy Proposals

The aims and objectives of the policy must be clear and terms of reference well defined. You must take into account any available data that will enable you to come to a decision on whether or not a policy may or may not have a differential impact on any of the s75 categories.

Policy Scoping

10. The first stage of the screening process involves scoping the policy under consideration. The purpose of policy scoping is to help prepare the background and context and set out the aims and objectives for the policy, being screened. At this stage, scoping the policy will help identify potential constraints as well as opportunities and will help the policy maker work through the screening process on a step by step basis.

11. Public authorities should remember that the Section 75 statutory duties apply to internal policies (relating to people who work for the authority), as well as external policies (relating to those who are, or could be, served by the authority).
# Information about the policy

## Name of the Policy

**Draft Northern Ireland Human Trafficking and Exploitation Strategy 2015/16.**

## Is this an existing, revised or a new policy?

New, although it builds on earlier Human Trafficking and Exploitation Action plans which have previously been published.

## What is it trying to achieve? (intended aims/outcomes)

The draft strategy and the objectives and actions underpinning it aim to reinforce Northern Ireland’s defences against human trafficking and slavery-like offences. It will facilitate effective investigations and prosecutions and will help to ensure that victims are identified, protected and supported.

## Are there any Section 75 categories which might be expected to benefit from the intended policy? If so, explain how.

All Section 75 categories are expected to benefit from this draft strategy, in particular individuals under the following category: racial group. This is because a proportionately high percentage of potential victims of human trafficking who were recovered in Northern Ireland during 2014 and referred to the National Referral Mechanism (NRM) were foreign nationals.

## Who initiated or wrote the policy?

The draft strategy was written by the Department of Justice in consultation with its statutory and non-statutory partners who are working to tackle human trafficking. It is required under section 12 of the Human Trafficking and Exploitation (Criminal Justice and Support for Victims) Act 2015.

## Who owns and who implements the policy?

The Department of Justice Northern Ireland owns the draft strategy and will lead on its implementation, in conjunction with other named partners.

Section 12 of the Human Trafficking and Exploitation (Criminal Justice and Support for Victims) Act (Northern Ireland) 2015 placed a requirement on the Department to produce an annual strategy on offences under section 1 and 2 of the Act (slavery, servitude and forced or compulsory labour and human trafficking). DOJ has worked
with key partners to produce a draft strategy, which will be subject to a full public consultation.

The draft strategy has been developed by the Department in collaboration both with civil society partners on the Engagement Group and statutory partners on the OCTF Immigration and Human Trafficking Subgroup. It builds on the good progress made through the 2013/14 and 2014/15 human trafficking action plans for Northern Ireland.

In consultation with stakeholders we have identified an overarching draft strategic aim: “To equip Northern Ireland to drive out human trafficking, slavery and forced labour”.

This overarching aim is underpinned by four strategic priorities:

i. Pursue (effective detection, disruption, investigation and prosecution of offenders);

ii. Protect and support (provision of effective protection and support and improved identification of victim);

iii. Prevent (prevent and reduce risk of human trafficking and exploitation in Northern Ireland; and

iv. Partnership (effective partnership response to human trafficking and exploitation).

These priorities are supported by a number of key objectives and a range of SMART actions, which the Department and its partners have committed to delivering during 2015/16.

Implementation factors

12. Are there any factors which could contribute to/detract from the intended aim/outcome of the policy/decision?

Yes

If yes, are they

- financial
- legislative
- other, please specify _________________________________

Main stakeholders affected

13. Who are the internal and external stakeholders (actual or potential) that the policy will impact upon?

☑ staff
☑ service users
☑ other public sector organisations
☑ voluntary/community/trade unions
☑ other, please specify: victims, potential victims and those vulnerable to human trafficking or slavery, servitude and forced or compulsory labour.

Other policies with a bearing on this policy

• what are they?
The Human Trafficking and Exploitation (Criminal Justice and Support for Victims) Act (Northern Ireland) 2015
Modern Slavery Act 2015
Review of the National Referral Mechanism

• who owns them?
DOJ / DHSSPS / Home Office

Available evidence

14. Evidence to help inform the screening process may take many forms. Public authorities should ensure that their screening decision is informed by relevant data.

15. What evidence/information (both qualitative and quantitative) have you gathered to inform this policy? Specify details for each of the Section 75 categories.

<table>
<thead>
<tr>
<th>Section 75 Category</th>
<th>Details of evidence/information</th>
</tr>
</thead>
<tbody>
<tr>
<td>Religious belief</td>
<td>There is no available data but there is no reason to</td>
</tr>

Part 2

SCREENING QUESTIONS

Introduction

17. In making a decision as to whether or not there is a need to carry out an equality impact assessment, consider questions 1-4 listed below.

18. If the conclusion is none in respect of all of the Section 75 equality of opportunity and/or good relations categories, then the decision may to screen the policy out. If a policy is ‘screened out’ as having no relevance to equality of opportunity or good relations, give details of the reasons for the decision taken.

19. If the conclusion is major in respect of one or more of the Section 75 equality of opportunity and/or good relations categories, then consideration should be given to subjecting the policy to the equality impact assessment procedure.

20. If the conclusion is minor in respect of one or more of the Section 75 equality categories and/or good relations categories, then consideration should still be given to proceeding with an equality impact assessment, or to:

- measures to mitigate the adverse impact; or
- the introduction of an alternative policy to better promote equality of opportunity and/or good relations.

In favour of a ‘major’ impact

21. (a) The policy is significant in terms of its strategic importance;

(b) Potential equality impacts are unknown, because, for example, there is insufficient data upon which to make an assessment or because they are complex, and it would be appropriate to conduct an equality impact assessment in order to better assess them;
(c) Potential equality and/or good relations impacts are likely to be adverse or are likely to be experienced disproportionately by groups of people including those who are marginalised or disadvantaged;

(d) Further assessment offers a valuable way to examine the evidence and develop recommendations in respect of a policy about which there are concerns amongst affected individuals and representative groups, for example in respect of multiple identities;

(e) The policy is likely to be challenged by way of judicial review;

(f) The policy is significant in terms of expenditure.

**In favour of ‘minor’ impact**

22. (a) The policy is not unlawfully discriminatory and any residual potential impacts on people are judged to be negligible;

(b) The policy, or certain proposals within it, are potentially unlawfully discriminatory, but this possibility can readily and easily be eliminated by making appropriate changes to the policy or by adopting appropriate mitigating measures;

(c) Any asymmetrical equality impacts caused by the policy are intentional because they are specifically designed to promote equality of opportunity for particular groups of disadvantaged people;

(d) By amending the policy there are better opportunities to better promote equality of opportunity and/or good relations.
In favour of none

23. (a) The policy has no relevance to equality of opportunity or good relations.

(b) The policy is purely technical in nature and will have no bearing in terms of its likely impact on equality of opportunity or good relations for people within the equality and good relations categories.

24. Taking into account the evidence presented above, consider and comment on the likely impact on equality of opportunity and good relations for those affected by this policy, in any way, for each of the equality and good relations categories, by applying the screening questions given overleaf and indicate the level of impact on the group i.e. minor, major or none.
## Screening questions

1. What is the likely impact on equality of opportunity for those affected by this policy, for each of the Section 75 equality categories? Minor/Major/None

<table>

</tbody>
</table>

Additional considerations

Multiple identity

25. Generally speaking, people can fall into more than one Section 75 category. Taking this into consideration, are there any potential impacts of the policy/decision on people with multiple identities?

No.

26. Provide details of data on the impact of the policy on people with multiple identities. Specify relevant Section 75 categories concerned.

N/A
Part 3

Screening decision

27. If the decision is not to conduct an equality impact assessment, please provide details of the reasons.

The Department does not consider the draft strategy to impact on equality of opportunity of any of the section 75 groups.

28. If the decision is not to conduct an equality impact assessment, consider if the policy should be mitigated or an alternative policy be introduced.

The Department does not consider that there is a need for the policy to be mitigated or an alternative policy introduced.

29. If the decision is to subject the policy to an equality impact assessment, please provide details of the reasons.

N/A

30. Further advice on equality impact assessment may be found in a separate Commission publication: Practical Guidance on Equality Impact Assessment.
Mitigation

31. When the public authority concludes that the likely impact is ‘minor’ and an equality impact assessment is not to be conducted, the public authority may consider mitigation to lessen the severity of any equality impact, or the introduction of an alternative policy to better promote equality of opportunity or good relations.

32. Can the policy/decision be amended or changed or an alternative policy introduced to better promote equality of opportunity and/or good relations?

33. If so, give the reasons to support your decision, together with the proposed changes/amendments or alternative policy.

N/A
Timetabling and prioritising

34. Factors to be considered in timetabling and prioritising policies for equality impact assessment.

35. If the policy has been ‘screened in’ for equality impact assessment, then please answer the following questions to determine its priority for timetabling the equality impact assessment.

36. On a scale of 1-3, with 1 being the lowest priority and 3 being the highest, assess the policy in terms of its priority for equality impact assessment.

<table>
<thead>
<tr>
<th>Priority criterion</th>
<th>Rating (1-3)</th>
</tr>
</thead>
<tbody>

<tr>
<td>Social need</td>
<td></td>
</tr>
<tr>
<td>Effect on people’s daily lives</td>
<td></td>
</tr>
<tr>
<td>Relevance to a public authority’s functions</td>
<td></td>
</tr>
</tbody>
</table>

37. Note: The Total Rating Score should be used to prioritise the policy in rank order with other policies screened in for equality impact assessment. This list of priorities will assist the public authority in timetabling. Details of the Public Authority’s Equality Impact Assessment Timetable should be included in the quarterly Screening Report.

38. Is the policy affected by timetables established by other relevant public authorities?

39. If yes, please provide details.
Monitoring

40. Public authorities should consider the guidance contained in the Commission’s Monitoring Guidance for Use by Public Authorities (July 2007).

41. The Commission recommends that where the policy has been amended or an alternative policy introduced, the public authority should monitor more broadly than for adverse impact (See Benefits, P.9-10, paras 2.13 – 2.20 of the Monitoring Guidance).

42. Effective monitoring will help the public authority identify any future adverse impact arising from the policy which may lead the public authority to conduct an equality impact assessment, as well as help with future planning and policy development.
