IntroVic The next questions concern things that may have happened over the 12 months or so since *[date year ago]*, in which you may have been the victim of a crime or offence.

This doesn't mean that crimes that may have happened before this time are unimportant, but we want to build a picture of just the last 12 months, so we can measure how people's experience of crime changes from one year to the next.

I am only concerned with incidents which have happened to YOU PERSONALLY or to people who are NOW part of your household. I don't just want to know about serious incidents - I want to know about small things too.
